

Dr Crean has returned from Vanuatu. He ran 2 health clinics, helped repair, & build rainwater tanks, and drill for water (with his family).

Health clinic, Sunei village, Mosso

Family cooking hut

Rainwater tank under repair, the paint would not dry/set for nearly 1 day due to the humidity

Typical village home, some were more elaborate. See the loaded fruit tree.

Dr Crean helping out, in Blacksands, Efate. Note the intricate engineering of the tables.

Happy faces at farewell

The kids always seemed happy and were easy to entertain, and have fun with

A more elaborate cooking hut

One of many facilities seen. Included to give an understanding of why Contamination of water supply occurs

This is a functioning hand made well. We drank from this one

Well drilling..it worked!!
